

Karthick A

Embedded Systems Engineer

Spark Invotech Pvt Ltd · Chennai, India

Automotive ECU electronics, PCB design and industrial IoT. Schematic through PCB, firmware and field commissioning on running engines and factory floors.

CONTACT CARD karthick-card.vercel.app/

Capabilities

ECU & engine electronics

dual-fuel control · injector drivers · MAP/EGT/RPM sensing · CAN

Hardware & PCB

MOSFET stages · buck/linear supplies · flyback protection · Altium · KiCad

Firmware

embedded C/C++ · interrupt-driven · state machines · STM32 / ESP32 / ATtiny

Protocols & IoT

CAN · RS485 · LoRa · SPI/I2C/UART · HTTP/JSON · SD & SPIFFS logging

Test & debug

oscilloscope · ST-Link SWD · UPDI · custom UART capture tooling

Selected work

- Dual-Fuel Engine Control Unit (LPG/CNG)
- Injector Multiplier
- Acoustic Vehicle Alerting System
- Oil Control Unit
- Compressor Health & Power Monitoring
- Cold Chamber Data Logging System
- Production Quantity Monitoring System
